Double First Base

- Rule 1-2-9 noting that the double first base must be white and a contrasting solid color. The white portion of the base is located in fair territory while the colored half is located in foul territory, split by the first base foul line. There is to be no space between the two portions of the double base.

Double First Base

- Rule 8-2-2a, outline how batter-runners and fielders shall use the double first base. The batter-runner should use the colored base on an initial play at first base unless a fielder is drawn into foul territory to receive a dropped third strike, in which case, the batter-runner would use the white portion of the base. Once the batter-runner reaches first base, the batter-runner must always return to the white base, including when leading off, returning on a pick-off attempt or tagging up on a fly ball.
- A batter-runner may use either side of first base on a base-on-balls or on an extra-base hit to the outfield when there is no chance of a play to be made going into first base.

Dec 7, 2025

- Interference is to be called on batter-runners if they only touch the white portion on a force play at first and collide with the fielder. Similarly, it is obstruction if a defensive player only touches the colored portion of the base and collides with the batter-runner.
- Rule 2-5-1h was added to note that it is a fair ball if a batted ball hits or bounds over any part of the white portion of the double first base. Alternately, it is a foul ball if a batted ball hits or bounds over any part of the colored portion of the base (Rule 2-16-1h).

Defensive Player Meetings

- Rule 3-4-6 was added to address defensive player meetings as charged conferences. Each team, when on defense, may be granted not more than one player-to-player meeting during an inning. Umpires shall deny any subsequent defensive team requests for that half-inning. Additionally, Rule 2-10-3 was added to define a player-to-player defensive meeting as having two or more defensive players.
